Open Water Scuba Diver Certification

The weekend class will give you the certification card to dive with out expiration.

Advance, Rescue, Dive Master and Instructor

We have classes all the way to Instructor.

Frequently Asked Questions (FAQ)...

Q: How long does it take to get certified?

A: Our Basic Scuba Certification takes as little as 1 weekend.

Q: How old do I need to be to get certified?

A: The minimum age is 10 years old, with limits.

Q: Do I need to buy equipment before I get started?

A: No, in fact we allow our students to try on different styles of scuba gear. We just want you to get the basics your mask, fin and snorkel.

Q: What will I need before my Open Water Class?

A: You will need to have your own personal gear for Open Water. That consists of mask, snorkel, booties and fins. We will supply everything else.

Q: After my certification, can I come back to the pool just to refresh my skills?

A: Absolutely! We always want you to come back and get in the pool before a trip. Set up your gear, adjust your weights, or just work on skills.

Q: If I am unable to make it to class - Can I reschedule?

A: Yes, we will reschedule for you twice, but there are no refunds on your class if you cancel. There is a set amount of students per class and majority of summer season classes are full. There is a buy back on any books or DVDs if you cancel your class 2 weeks prior to the class starting. They must be in the original condition. A restocking fee may apply.

Q: How long after my class and pool sessions do I have to do my Open Water?

A: After completing the class and pool session you must complete the Open Water within a reasonable amount of time - usually 6 months.

A Little History...

Shawn Nasserri started scuba diving in 1992 when he was doing PhD classes at Duke University and fell in love with the sport. He continued his scuba training while in school and earned his NAUI, PADI and SDI Instructor certifications. Being a triple Agency instructor, Shawn eventually focused on the oldest agency NAUI and largest PADI. Shawn started Scuba Now in 2008, things really started to fly in 2011 and have been going higher every day.

Our Curriculum

We use NAUI (National Association of Underwater Instructors) for our main certification and training materials.

We believe that students who are taught the thought processes of diving will become divers for life instead of course completers. If you are properly trained, scuba diving is the most fun thing on the planet. If you are not, scuba diving is a completely different experience. It is our goal for you to enjoy every dive beginning with your first open water dive.

Our Programs

Scuba Now has all your training needs from Snorkeling to Instructor Level Certifications!

Our Equipment

We are an authorized dealer for many top manufacturers including the World's number one dive gear Atomic Aquatics – stop by today and see what works best for you.

Captain Shawn S Nasserri NAUI Instructor Trainer, PADI Staff Instructor, HC Pilot, Ironman Finisher, and way too much stuff to fit in this box.

Letter from the Owner

Congratulations on your decision to learn to scuba dive! We welcome the opportunity to help you discover the underwater world! You have taken the first step towards experiencing the joy and excitement of this amazing sport. Your course will be informative, exciting and FUN!

Please take a few minutes to watch the enclosed DVD, *Scuba Diving: Take a Closer Look*. It is yours to keep or pass on to your friends. See what exciting adventures await you as a certified Scuba Diver!

Scuba diving is a great way to meet new friends and explore new areas of special interest such as: lobster hunting, wreck diving, shell and aquarium specimen collecting and undersea exploration. We offer a variety of instructional programs ranging from underwater photography to the highly regarded Master Scuba Diver training course. The opportunities at Scuba Now are as varied as the creatures of the sea.

In your class you will also cover many other interesting diving topics including: physics, physiology, dive tables, marine awareness, dive safety plus many other interesting topics.

Please take a moment to read the enclosed information. Once again, welcome, you are on your way to discovering the beauty, diversity, and enjoyment our aquatic world has to offer.

Sincerely,

Shawn S Nasserri
